

## Expert Workers' Compensation Claims Processing Platform

CLAIMExpert is a central solution that serves as a hub to process incoming claims and related documents. It makes the quick decision about where to send routine documents so your adjusters can focus on more important tasks and closing claims.

### *More than just an intake system...*

Beyond the automatic routing of electronic files, CLAIMExpert will flag anomalies, pay bills, and provide deep analytic insight into your incoming claims. CLAIMExpert is current to state fee schedules.

Our agreements with industry-leading PPO partners negotiate the best rates for customers, and allow users to measure performance to achieve the best managed care solutions for their business needs.

This streamlined solution can vastly improve your workflow, free up adjusters and decrease medical loss.

*Our solutions can be implemented  
in as little as 90 days*

### *What does that mean for your IT department?*

No upfront capital or implementation required on your part.

Our team will connect CLAIMExpert to your existing systems and our custom rule-set means CLAIMExpert can be tailored to your business needs.

### *By the Numbers:*

Clients typically see **11-20 points** of medical loss improvement in the first year.

Adjusters who use CLAIMExpert close medical claims over 50% faster, freeing up reserves earlier.

Auto-adjudication of 75% of medical bills and documents, while still reviewing each for appropriateness and relatedness.

Give your adjusters and your bottom line a boost. CLAIMExpert is the tool you need to optimize your business **once and for all.**
