

# Workers' Compensation Claims Processing Platform for the Enterprise

## Overview

CLAIMExpert is a SaaS based workers' comp claims processing platform that integrates with existing claims systems and partner connections to control your medical spend and streamline your claims handling process. CLAIMExpert creates a highly audit-able workflow and greatly increases speed and accuracy in the claims handling process.

## Key Benefits

**11%**

Clients see 11 points of medical loss improvement in the first year.

**40%**

CLAIMExpert proven to free up to 40% of the Adjusters day.

**\$0**

SaaS delivery model means no capital outlay or upfront costs.

## Day One Positive ROI

CLAIMExpert reduces medical spend dramatically from day one, which can be as little as 90 days from contract execution. Outcomes are improved day one. Operating efficiencies are realized day one. **Bottom Line - Implementing CLAIMExpert is a cash positive event day one.**

## Eliminate Compliance and IT Headaches with CLAIMExpert

CLAIMExpert is delivered as Software as a Service (SaaS) and configured by Acrometis. You don't have to find capital for software licenses or consulting fees. Once CLAIMExpert begins processing incoming claim documents, you only pay a per-document fee. Acrometis keeps CLAIMExpert current with jurisdictional changes, enabling your operations to always maintain compliance.

**CLAIMExpert acts as a hub for all of your disparate claims related systems, enabling easy interconnections and future upgrades with minimal IT involvement.**

## How CLAIMExpert Works

CLAIMExpert is a comprehensive claim processing system with a customizable, expert-based rule-driven engine that automatically routes electronic claim files and related notes, schedules and executes tasks, flags priorities and anomalies, communicates with vendors, and pays medical bills. Features include adjudication of workers' compensation medical bills to state fee schedules and PPO networks, robust bill review rule sets, seamless integration with payment processing, and custom-tailored workflow design. It dramatically increases productivity, speed, accuracy, and data access.

## Workers' Comp Best-Practice Based Implementation

The extensive expert ruleset and experience of the implementation team allows for you to begin using CLAIMExpert in as few as 90 days. The Acrometis implementation team takes responsibility for connecting CLAIMExpert to your business and tailoring it to fit your business. Our team of workers' comp business experts will map your current systems, partner connections and business processes. Then integrating that information with our 10,000+ expert rules, the Acrometis team will configure CLAIMExpert to your specific needs.

## Included with CLAIMExpert

Acrometis' Managed Care Gateway is delivered as a core component of all of our offerings, enabling payers to easily manage, evaluate and optimize their managed care vendors without lengthy, costly, difficult implementations or discontinuation.

ClaimQuik is a document management system custom built for the unique needs of handling workers' compensation claims. Quickly find claim documents, view all documents related to a claim, and easily package sets of claim documents for delivery to third parties.

## About Acrometis
